

LifePlugs™ Dental

LifePlugs™ Dental

Earplugs designed for dental staff and dental patients.

LifePlugs™ Dental provides protection from the damaging sounds of dental drills and HVEs thanks to its interior design. Microsonic's proprietary silicone compound and external vent ensure that you hear conversations without muffling, making it easy to carry on conversations without removing your earplugs.

Our soft silicone material and unique earplug design make *LifePlugs™ Dental* comfortable to wear all day.

Choose between our standard glossy finish or silky smooth SlikFit™ matte-finish [pictured]. Both are antibacterial, hypoallergenic, and easy to clean.

Protection. Comfort. Clarity.

Easily listen to and talk with patients without removing your earplugs.
