

SIGNATURE

RIC Custom Earmolds

MICROSONIC
CLEARLY THE SOUND CHOICE

Hear life better.

While younger users of hearing aids can benefit from the selective amplification, noise cancelling and other great features of the newest hearing aids, they shouldn't compromise on the quality of the earmolds in their ears.

Why? Because quality custom earmolds simply sound better!

The sound quality and discreet size of our new RIC earmolds have made them extremely popular, because they:

- Provide the necessary gain before feedback.
- Help retain the receiver in the ear canal.
- Make insertion and removal easier.

- FIT** Secure. 3D printed & custom-fit to your ear
- INVISIBLE** Fits discreetly in your ear canal
- DESIGN** Open design that allows more natural sound *
** Open-fit Cavern styles provide maximum venting*
- FORGET** that you're wearing them. Comfortable & light. Wear them all day & all evening
- MATERIAL** High quality silicone materials with antibacterial & hypoallergenic finishes
- SOUND** Improved sound quality. Optimize your HAs

Woman-owned & operated. ISO 9001:2015 Certified
